Uni-lok

Must-have hydraulic coupler

Harford Attachments are proud to introduce you to the **Uni-lok**® hydraulic pin-grabber. A must have for any construction business to enhance your excavators' performance and improve productivity. Suitable for any excavator 3/4 -14T.

- Easy to install
- Easy to operate
- Easy to maintain
- Improved operator safety

Pro-lok

Class-leading manual hitch

Pro-lok, our mechanical quick coupler, will last longer and perform better than any spring-type equivalent time and again. Benefits include picking up all your standard buckets and putting operator safety first.

- Unique double-locking wedge technology
- Automatic wear compensation
- Visible safety indicator

Safelock

Best-selling dedicated coupler

Do you run a mixed fleet of excavators? Then you'll be interested in the Harford Safelock® dedicated coupler. It is low-maintenance, easy to operate and has safety features that gives operators the confidence that buckets are secure.

- Unbeatable for rentals
- Integral operating handle
- Self-adjusting wedge locking
- Built-in safety indicator

ABOUT HARFORD
